***Allowable Subject Matter***

1. Claims 201, 203-217, 219-234 and 267-268 are pending and allowed.
2. The following is an examiner's statement of reasons for allowance:

The closest prior art of Kahn (US 6,401,079 B1) teaches an automated, centralized back-end payroll service with a full-featured web-based payroll system that provides employers and employees with a robust, data-driven user interface via a standard web browser. The central database provides the system's back-end payroll service functionality with constant access to the data. The system implements and enforces compliance with a wide variety of tax-related and employment-related rules across federal, state and local jurisdictions relating. The system can automatically receive and implement electronic updates to these rules, modifying its own functionality to conform to these changes and ensure compliance with current rules. The payroll system functionality includes the automated collection of employee data and the calculation of employee income, taxes, and pre- and post-tax deductions. The system automatically calculates overtime, imputed income, and paid-time-off benefits, and allocates the sharing of payments for other benefit programs between employers and employees, as well as enabling employers to set up custom policies. Employers can review and validate employees' paychecks and print paychecks locally and/or submit the payroll to the system's automated back-end payroll service. The system's back-end payroll service functionality generates disbursement information for payments to employees, benefit providers, miscellaneous payees, and various tax authorities, subject to compliance with the system's database of rules and automatically effects

transfers of funds, payment information, and reports, whether electronic or otherwise, at the appropriate times.

In regarding to independent claims 201, 217 and 233-234, Kahn taken either individually or in combination with other prior art of record fails to teach or render obvious batching the credits into a plurality of batch files based upon the intermediary identifier, each batch file including intermediary-requested data; and sending each batch file, including the intermediary-requested data, to an intermediary based on the intermediary identifier; receiving verification information from the intermediary, the intermediary being separate from the plurality of employers and the verification information including the intermediary-requested data; and verifying the employee information using the verification information received from the intermediary.

3. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
